

Voter Outreach

Voter Outreach is a highly customizable web application accessible through all mobile devices. The solution is gateway for voters for their Election and Voting related information. Voter Outreach integrates with Statewide Voter Registration System to receive data. Voters can enter their residential address to get Federal, State and local district election information.

Access real-time information:

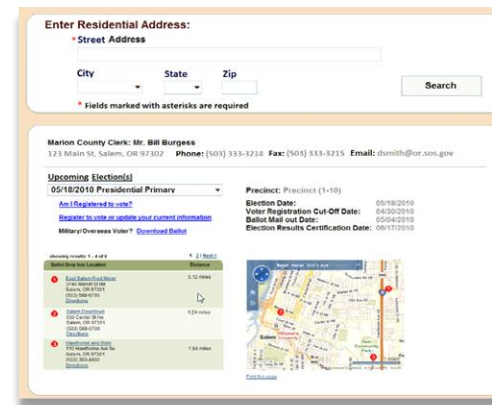

- Upcoming elections with key election dates
- Polling Place / Ballot drop-off location
- Sample ballot image
- Short or full ballot for military and overseas citizens
- Tracking of Absentee / Mail / Provisional ballots
- District and Elected Officials
- State & County Voter Pamphlets
- Voter's registration status and household voters list
- Shopping cart for purchase of customizable public voter registration reports
- Link to other key election sites

Solution Benefits

- Means for Election administrators to reach Voters and provide all Elections and Voting related information to voters in one location.
- Presents real-time information based on voter's residential address.
- Enables voters to track the status of their mail-in or provisional ballots
- Enables Military & Overseas voters to download a ballot for voting
- Acts as a medium for distribution of Voter Pamphlets.
- Allows voters to check their voter registration status
- Accessible through web and smart phones
- Shopping cart for delivering public reports of voter registration data

Design Philosophy

- User friendly interface that presents all voting & elections related data in the most cohesive way
- Entice users
- Highly configurable design that allows administrators to manage most of the application
- Scalable and expandable design to meet future needs
